

Please deny BellSouth Telecommunications Inc's Petition for Forbearance. If this petition is granted, I fear that my small, independent DSL provider, Sonic.net, will be threatened. I have received fast, personalized, excellent service from Sonic.net. I have received this excellent service at a reasonable price. I believe that if a few large telephone companies monopolize DSL service, the price for DSL service will rise, and the quality of service will decline. Please deny this petition!
